Personal Summary

Passionate and detail-oriented Front-End Developer and Software Engineering student at Al-Azhar University. Skilled in building responsive, user-friendly web applications using modern tools like React.js, Tailwind CSS, and Git. Adept at problem-solving, teamwork, and delivering impactful solutions. Eager to contribute to innovative teams and expand my technical expertise.

Education

Al-Azhar University, Faculty of Engineering
Department of Systems and Computers (2021 – Expected Graduation: 2026)

Professional Experience

- Web Front-End Trainer | GDGC (2023 – Present)
  Trained university students in web development, covering HTML, CSS, JavaScript, and frameworks like React.js and Bootstrap.
- Online Training Programs:
  • ITI Academy: Participated in specialized software development courses.
  • Platforms like Moalmena: Enhanced technical and personal skills.
- Personal Projects:
  Developed interactive web applications using React.js and designed responsive websites with Bootstrap and Tailwind CSS.

Technical Skills

- Web Development: HTML, CSS, Tailwind, Bootstrap
- Interactive Programming: JavaScript, React.js

- Development Tools: Git, Visual Studio Code
- Version Control: Git & GitHub
- Project Management: GitHub for code management and collaboration

Personal Skills

- Strong ability to work collaboratively in a team
- Effective communication skills to convey ideas clearly
- Quick adaptability to diverse work environments
- Ability to work under pressure and meet deadlines
- Creative thinking and finding innovative solutions

Professional Interests

- Modern Technologies: Following the latest web development trends such as React.js and Next.js.
- User Experience Enhancement: Developing web applications that focus on seamless user experiences.
- Education and Training: Sharing knowledge and training aspiring software developers.

Projects

- Prayer Times Application: Displays prayer times for various cities using JavaScript.
- Personal Website: Designed a portfolio showcasing background and projects using HTML, CSS, and JavaScript.
- Mini Shop: A small e-commerce React app with admin panel and product listing (GitHub: github.com/abdullah-tarek-dev/mini-shop)
